Nationally the farmer represents about 4.5 percent of the population, yet he pays 40 percent of all real estate taxes.

* * *

Nationally, 25% of all agricultural sales come from cattle and calves: This is more $ from cattle than the 11 leading crops. Cattle bring in more $ than the sale of hogs, sheep and dairy products combined. While cattle prices are up, it really reflects increased disposable income by the consumer. Cattle numbers have increased 8 million in 5 years.
